## 1-Steps to Create and Run a Laravel Project

Install Composer

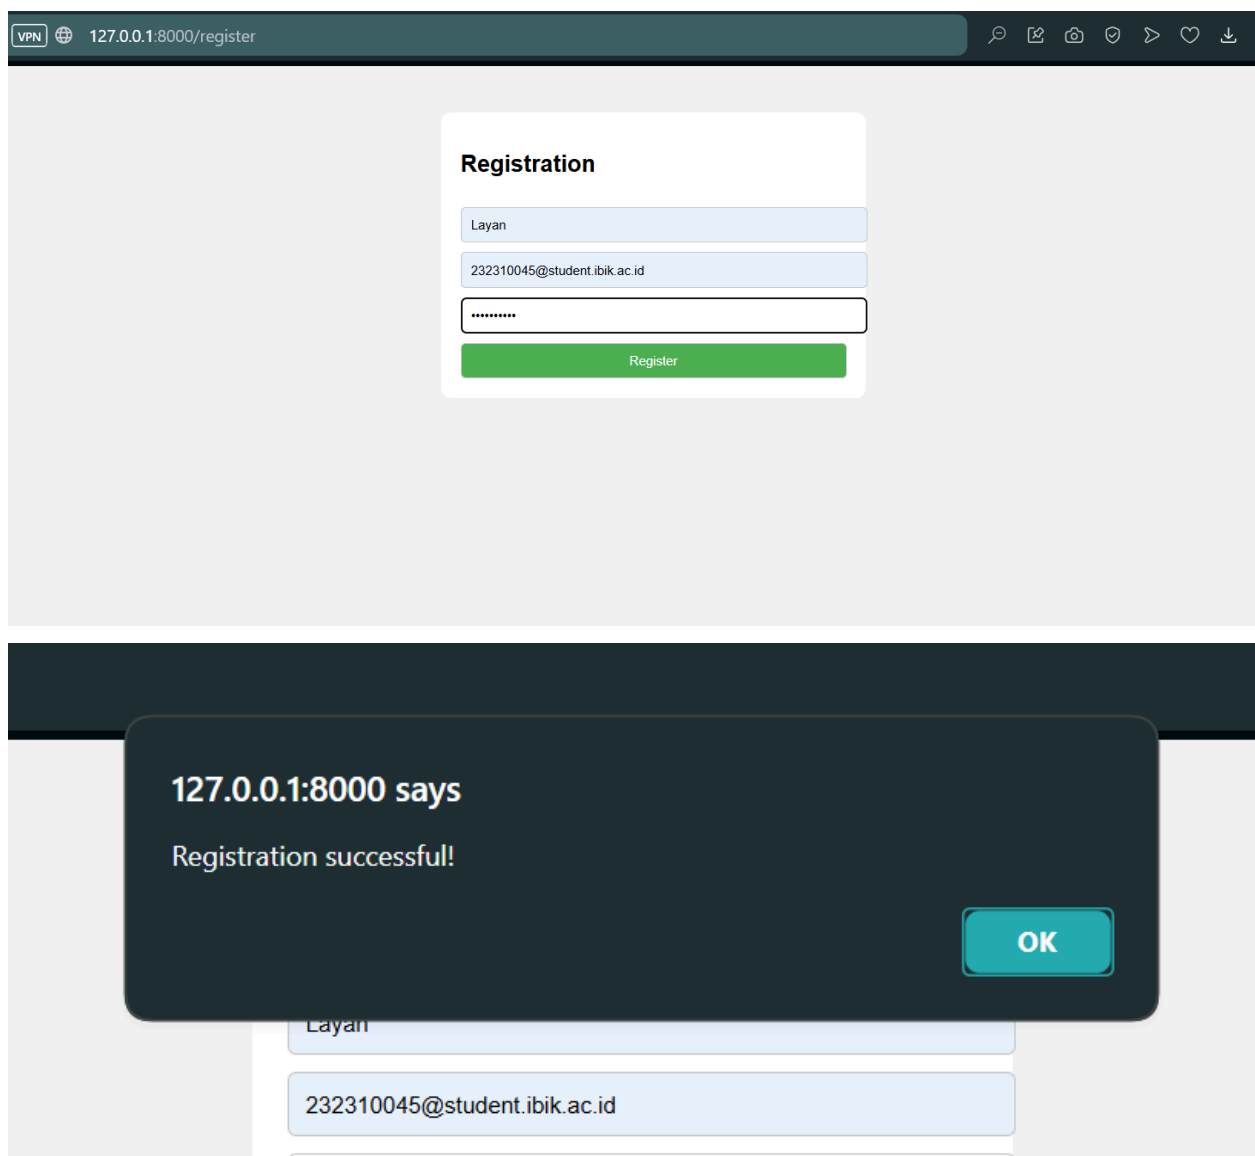

Open terminal and run this command to create a Laravel project:

*composer create-project laravel/laravel:^9 quiz-app*

Run the Laravel development server

*php artisan serve*

Open in browser: <http://127.0.0.1:8000>

The image shows a web browser window with the address bar displaying "127.0.0.1:8000/register". The page contains a "Registration" form with three input fields: "Layan", "232310045@student.ibik.ac.id", and a password field with masked characters. A green "Register" button is at the bottom of the form. Below the form, a dark blue modal box displays the message "127.0.0.1:8000 says Registration successful!" with an "OK" button.

VPN 127.0.0.1:8000/register

### Registration

Layan

232310045@student.ibik.ac.id
